PAPERplus® Coiler²

ROBUST AND FLEXIBLE

STOROpack

PERFECT PROTECTIVE PACKAGING

Coiler² MEANS TO RELIABLY PROTECT HEAVY AND SENSITIVE GOODS.

Companies who ship large, heavy, and fragile products can now benefit from the flexible PAPERplus® Coiler² system from Storopack. The machine processes the paper pads that are preformed by the PAPERplus® Classic, PAPERplus® Crossover, or PAPERplus® Track paper cushion machines – and turns them into robust coils of paper cushioning. These are ideal for protecting heavy products such as mechanical and electronic parts.

PAPERplus® Coiler²
with PAPERplus® Classic
